Section 54.202(a)(2) of the Commission's Rules requires that each eligible telecommunications carrier ("ETC") must "[d]emonstrate its ability to remain functional in emergency situations, including a demonstration that it has a reasonable amount of back-up power to ensure functionality without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations."

Section 54.313(a)(6) requires ETCs to certify that they are "able to function in emergency situations as set forth in §54.202(a)(2)" in connection with their provision of voice and broadband services.

Adak Eagle Enterprises, LLC dba Adak Telephone Utility (AEE) and its sub subsidiary Windy City Cellular, LLC (WCC) have deployed the services that provide sufficient power generators to ensure functionality without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations.

AEE and WCC have geographically located its switching infrastructure. All facilities are equipped with both AC and DC battery backup as well as generators. All critical equipment is also supplied with 2 separate power sources (or primary and redundant power feeds).

AEE and WCC maintain multiple paths to reach our network. This is setup by using multiple IP transit for all IP connectivity. Once the origination traffic reaches the AEE and or WCC network all elements are setup with the same N+1 configuration. The configuration allows each element a primary and redundant path to terminate the traffic without service interruption. In the event the main element fails or that element reaches maximum capacity AEE and WCC have designed the network to advance the traffic to 1 of 3 other elements in the same N+1 configuration that is listed above. The switching infrastructure will advance to the next termination carrier in route in the event of a failure on any termination carrier's route.

On April 11, 2017 the Wireline Competition Bureau announced results for the Urban Rate Survey for fixed broadband Services as part of the FCC Public Notice DA 17-346. References in this public notice are the results required to meet the rate comparability as noted:

The Commission stated that the Bureau could use “data from its urban rate survey or other sources, as appropriate” in establishing the benchmark. ⁷ To calculate the broadband reasonable comparability benchmark, we use the same formula as in the 2017 Urban Rate Survey – Fixed Broadband Service Analysis with one change to account for the unique challenges of serving Alaska. ⁸ The methodology adopted for the reasonable comparability benchmark is the “estimated average monthly rate plus twice the standard deviation of rates for terrestrial fixed broadband service plans with download speeds of 10 Mbps or greater, upload speeds of 1 Mbps or greater, and usage allowance of 100 GB or greater.” ⁹ The estimate of the standard deviation of rates for service plans meeting the reasonable comparability benchmark criteria is the root weighted mean squared residual (RWMSR). RWMSR is the square root of the weighted average of the square of residuals (observed rate minus average rate as defined by the Average Monthly Rate equation) plus the square of the spreads divided by 12. For Alaska, we modify the formula to use four standard deviations rather than two — that is four times RWMSR rather than two times RWMSR. Four standard deviations, which increases the price benchmarks, accounts for the unique geographical and infrastructure challenges carriers face in bringing broadband service to Alaskan consumers, in particular high middle-mile costs even for fiber facilities. ¹⁰ To the extent that a carrier cannot certify in its FCC Form 481 to meeting the benchmark, it will provide an explanation.

Lifeline offers a monthly benefit to reduce or eliminate the cost of telephone or internet service for eligible subscribers. Only ONE Lifeline discount is allowed per household.

Your household is everyone who lives together at your address as one economic unit (including children and people who are not related to you).

The adults you live with are part of your economic unit if they contribute to and share in the income and expenses of the household. An adult is any person 18 years of age or older, or an emancipated minor. Household expenses include food, health care expenses, and the cost of renting or paying a mortgage on your place of residence and utilities. Income includes salary, public assistance benefits, social security payments, pensions, unemployment compensation, veteran's benefits, inheritances, alimony, child support payments, worker's compensation benefits, gifts, and lottery winnings.

Spouses and domestic partners are considered to be part of the same household. Children under the age of 18 living with their parents or guardians are considered to be part of the same household as their parents or guardians. If an adult has no income, or minimal income, and lives with someone who provides financial support to that adult, both people are considered part of the same household.

You have been asked to complete this Worksheet because someone else currently receives a Lifeline Program-supported service at your address. This other person may or may not be a part of your household. Answer the questions below to determine whether there is more than one household residing at your address.

- Does your spouse or domestic partner (that is, someone you are married to or in a relationship with) already receive a Lifeline Program-discounted phone? (check no if you do not have a spouse or partner) ____YES ____NO

- If you checked YES, you may not sign up for the Lifeline Program because someone in your household already receives a Lifeline benefit. Only ONE Lifeline discount is allowed per household.
- If you checked NO, please answer question #2.

- Other than a spouse or partner, do other adults (people over the age of 18 or emancipated minors) who live with you at your address already receive Lifeline-discounted service? (check no for all options if no other adults live at your address)

- | | | | |
|--|----------------|----------------------|----------------|
| A. A parent | ____YES ____NO | D. An adult roommate | ____YES ____NO |
| B. An adult son or daughter | ____YES ____NO | E. Other | ____YES ____NO |
| C. Another adult relative (such as a sibling, aunt, cousin, grandparent, grandchild, etc.) | ____YES ____NO | | |

- If you checked NO for each statement above, you do not need to answer the remaining questions. Please initial line B, below, and sign and date the worksheet.
- If you checked YES, please answer question #3.

- Do you share living expenses (bills, food, etc.) and share income (either your income, the other person's income, or both incomes together) with at least one of the adults listed above in question #2? ____YES ____NO

- If you checked NO, then your address includes more than one household. Please initial lines A and B below, and sign and date the worksheet.
- If you checked YES, then your address includes only one household. You may not sign up for the Lifeline Program because someone in your household already receives Lifeline.

CERTIFICATION

Please initial the certifications below and sign and date this worksheet. Submit this worksheet to Adak Telephone Utility or Windy City Cellular along with your Lifeline Program application.

- I certify that I live at an address occupied by multiple households.
- I understand that violation of the one-per-household requirement is against the Federal Communication Commission's rules and may result in me losing my Lifeline benefits, and potentially, prosecution by the United States government.
